

FLOSORB™ ABSORBER

Phenolic Resin Based Absorbent

PRODUCT DESCRIPTION

FLOSORB ABSORBER is a dry, hydrophilic absorbent product designed to absorb water and hydrocarbon-based liquid and semi-solid spills in a variety of municipal and industrial applications.

APPLICATION

FLOSORB ABSORBER is a lightweight, non-hygroscopic absorbent with a porous, high surface area structure allowing it to rapidly absorb 20-30 times more liquid than clay-based products.

TYPICAL APPLICATION RATE

When applying FLOSORB ABSORBER to a spill, sprinkle the product over the surface at a rate of approximately 1.25 lb. to every 1 gal. of liquid. More may be required for high viscosity liquids.

COMPATIBILITY

FLOSORB ABSORBER can be used on a wide variety of liquid chemical spills. However, it is NOT recommended for use on cyanide solutions, concentrated nitric acid (>40%), sodium hypochlorite (>8%), and organic peroxides.

TYPICAL PROPERTIES

Appearance	Dark Green Powder
Solids Content %	~100 %
Bulk Density	Approx. 3 lb./ft ³
Odor	None

HANDLING AND STORAGE

Avoid contact with skin and eyes. Wash hands and face before breaks and immediately after handling the product. Keep containers tightly closed. Keep in a dry, cool, and well-ventilated place.

PACKAGING

- 4 x plastic pails in a box (4 lb. net wt.)
- 55 gal. plastic drum (44 lb. net wt.)
- 55 gal. plastic drum refill box (44 lb. net wt.)

HEALTH AND SAFETY

FLOSORB ABSORBER is non-hazardous, however, precautions should be taken to avoid inhalation, ingestion, or contact with skin or eyes. Proper PPE should always be used when cleaning up/handling any hazardous material.

Spills of unused product should be swept up and shoveled into suitable containers for disposal. Disposal of this product after it has been used to absorb toxic and hazardous materials must comply with all federal, state, and local laws and regulations regarding proper handling and disposal.
